WINTER 2020

A MESSAGE FROM YOUR MP

The Liberal Government believes that everyone should be able to find a place to live where they can raise their families and build their futures. **Since 2015, our Government has helped more than 1 million people find safe and affordable homes with investments of nearly \$13 billion.**

Now more than ever, this work is

even more crucial. By investing in affordable housing, we can create jobs, grow our middle class, build strong communities, and help reduce homelessness.

Our plan has made housing more affordable for those who need it the most: seniors, persons with disabilities, low-income families, and middle class Canadians.

WE'RE HELPING PEEL RESIDENTS SELF-ISOLATE WITH THE NEW VOLUNTARY SELF-ISOLATION SITE

The federal Government has given the Region of Peel \$6.5 million to establish a safe and voluntary self-isolation site to help curb the spread of COVID-19.

When you have symptoms, self-isolation is one of the best ways to help stop the spread— but for some people, that just isn't possible.

Through this funding, the site will have 40 units with the possibility of expanding to 80. Together, we'll stop community spread in Peel and keep our cities and our loved ones safer and healthier.

While federally funded, choosing the location and managing the site will be run by Peel Public Health

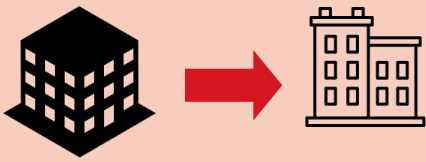

WE'RE BUILDING 3000 NEW AFFORDABLE HOUSING UNITS ACROSS CANADA

Everybody deserves a safe and affordable place to call home. Investing in affordable housing will not only help us achieve our goal of cutting homelessness in half, but also help us house the ones who need it most, create jobs and build stronger communities in the process.

With our **new Rapid Housing Initiative**, we're investing \$1 billion to create 3000 new, permanent, and affordable housing units across the country by:

Developing new multi-unit rentals

Converting non-residential buildings into affordable multi-residential homes

Rehabilitating abandoned buildings and buildings in disrepair into affordable multi-residential homes

MAKING HISTORY– PEEL RECEIVES LARGEST EVER INVESTMENT FOR AFFORDABLE HOUSING

\$276M

FOR
PEEL REGION

- Through the National Housing Co-Investment Fund (NHCF) Peel is getting the single biggest investment for affordable housing ever made in our region.
- We're going to get more homes built and even more people housed

\$13.7M

FOR
BRAMPTON

- Thanks to a different stream of federal funding, we're excited to announce the construction of the BBCFR 6-storey Affordable Housing Building right here in Brampton
- This project will create 89 new units of affordable housing for those who need it
- It also rehabilitates a registered Heritage property

We're this much closer to helping our most vulnerable find homes and making Brampton a better, safer, and more affordable place to live.
