**BY SEPTEMBER,
CANADA WILL
RECEIVE 117
MILLION
VACCINES**

Did you know?

We only need approximately 82 million vaccines to fully vaccinate everyone in Canada.

Vaccines In Canada Over Time

To learn more about when and how to receive your vaccine, please visit <https://www.peelregion.ca/coronavirus/vaccine/>

We're on track to provide a vaccine to every Canadian who wants one by September

VACCINE FREQUENTLY ASKED QUESTIONS

1) Are the vaccines safe?

Yes! Canada has one of the highest standards in the world for vaccine approvals. We take the health and safety of Canadians extremely seriously and only approve vaccines we know are safe and effective.

2) Are the vaccines mandatory?

Despite being free, the vaccine is not mandatory. Receiving a vaccine is a personal choice that the vast majority of Canadians agree with to protect themselves and their loved ones.

3) How do you decide vaccination priority?

The National Advisory Committee on Immunization (NACI) is a group of independent health experts that provides guidance on vaccine distribution. NACI provides recommendations to the provinces who then have the final say on how prioritization occurs.

4) Can I choose which vaccine I will receive?

At this time, recipients cannot choose which vaccine they receive. However, rest assured that all vaccines being offered are both safe and effective.

NOTE: The information shown here is accurate as of April 7, 2021. For up to date information, sign up for our Weekly Updates.
