A LETTER FROM YOUR MEMBER OF PARLIAMENT

Dear Brampton North,

Thank you for entrusting me once again with the privilege of serving as your Member of Parliament in Ottawa.

Since 2015, I have worked hard to make sure Brampton continues to receive the investments we need in infrastructure, transit, community building, and much more.

I'm looking forward to

continuing my advocacy for you and everyone in Brampton North to better benefit our communities, make life more affordable for families, protect Canadians' health, and boost our economy.

More importantly, I'm looking forward to being even more accessible to you. If you need help or have questions about any federal issue, my door is always open.

TO REPRESENT**

YOU

Our Plans For A Better Brampton

\$10 A Day Childcare

When the Ontario Government signs onto our federal early learning and childcare policy, we'll be saving Brampton families almost \$16,000 in childcare costs. We're making life more affordable for families as early as 2022 when we cut childcare costs in half.

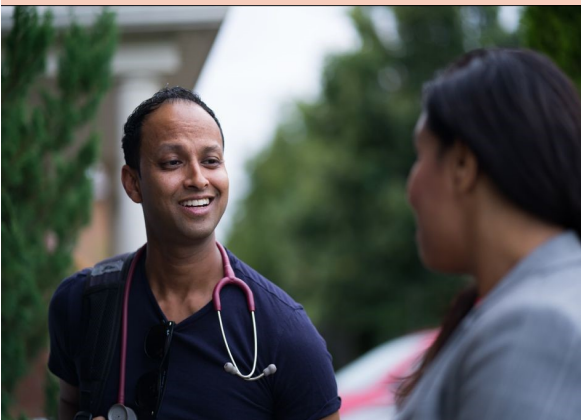

A More Resilient Economy

The Canadian Government is going beyond our goal of creating 1 million jobs and ensuring that federal workers receive \$15/hour, our economy moves forward into a sustainable future, and we expand EI to support even more Canadians.

Finishing the Fight Against COVID-19

Our Government is moving Canada out of the pandemic by enforcing vaccinations on planes and trains, requiring vaccinations for federal employees, and funding the provinces to implement vaccine passports.

Improving Our Healthcare System

Our federal Government is investing to tackle long waitlists in our healthcare system, hire 7,500 new doctors and nurses, and make sure mental health access is free and accessible for Canadians. We're also improving long-term care and hiring 50,000 new personal support workers.

A Home For Everyone

We're making home ownership more affordable by banning foreign buyers from buying residential properties, creating a Home Buyer's Bill of Rights, creating a new tax-free First-Time Home Savings Account, and building 1.4 million homes across the country to increase housing supply.

New and Noteworthy

Vaccine Passports For Ontario and International Travel

Thanks to the federal Government's quick funding, Ontario has been able to create and roll out a new proof of COVID-19 vaccination system. Download your new QR code proof of vaccination today and use it to access non-essential businesses.

The federal Government has also created a standardized proof of vaccination for domestic and international travel. You can download it from the Ontario website and add it to your ArriveCAN app.

Where To Get Your Vaccine

Walk-ins available at Region of Peel main office at **10 Peel Centre Drive**, Tuesday-Saturday from 1PM-8PM

Or, go online to book your appointment here: <https://www.peelregion.ca/coronavirus/vaccine>

Or, call the provincial booking line at **1-833-943-3900**

Honouring Truth And Reconciliation Day

On September 30th, Canadians commemorated our first National Day for Truth and Reconciliation and wore orange to honour Orange Shirt Day.

It was a time to reflect on the legacies of residential schools and come together to learn more about Indigenous history, reflect on the healing of survivors and advance reconciliation, together.

USA Open To Travelers With Mixed Vaccines

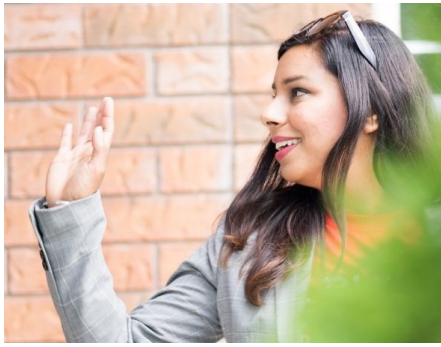

Fully vaccinated Canadians can now travel to the USA using our land border starting November 8, 2021. Canadians who received mixed vaccines are considered fully vaccinated, including any combination of Astra-Zeneca, Pfizer, and Moderna. Make sure to check Canada.ca for any travel advisories and travel requirements before planning your trip!

Temporary Changes to Employment Insurance

Coming into effect September 26, 2021 and ending on September 24, 2022, new changes to EI include: uniform entrance requirement of 420 insurable hours of employment for EI regular and special benefits, allowing claimants to receive EI benefits sooner by simplifying rules, and ensuring that all insurable hours of employment count towards eligibility. Check Canada.ca for more details and information on how to apply.
